

PHILIPS

Smart door lock

6000 Series

Narrow body lever-style smart

Works with Home Access App*

Heat resistant up to 70°C*

DDL611LKPKB

32mm narrow profile

Designed for narrow-frame doors

The DDL611S-5HBS features a 32mm slim profile, fitting narrow-frame doors (25-70 mm* thick). Compatible with aluminum, thermal break aluminum, and sliding doors, it's the perfect choice for both home and business!

Crafted with precision, built with care

- Defying the heat challenge

Smart life 'locked' with excellence

- Stay informed about your doorstep while away
- Convenient and secure access
- Tailored to meet all visitor entry needs

Secure protection, smart embedded

- Say goodbye to the security concerns

Highlights

Tough against heat up to 70°C*

Engineered for sun-scorched regions, the Philips DDL611S-5HBS has been rigorously tested at – 25°C and 70°C for 5 hours, remaining fully functional. Unfazed by extreme cold or heat, it effortlessly handles hot climates and regions with significant day-night temperature fluctuations.

Works with Home Access App*

The DDL611S-5HBS works with the Home Access App, allowing you to connect to the network via a gateway. You can easily check lock operation records, doorbell notifications, and entry logs on the app anytime. Anomaly alerts will be sent as pop-up notifications, keeping you informed about your doorstep's status and providing peace of mind.

Versatile unlocking options

The DDL611S-5HBS supports five unlocking methods: fingerprint, PIN code, smart key, key tag, and mechanical key, providing versatile options to meet every family member's needs while ensuring both convenience and security.

Custom access control PIN*

After connecting to the gateway and binding the app, the DDL611S-5HBS easily meets the entry needs of different visitors. You can customize a range of temporary PIN codes, including one-time codes* valid for 6 hours, recurring codes*, or time-limited codes*. Share these temporary PIN codes remotely for convenient and secure access for your guests!

Real-time push alerts

The DDL611S-5HBS features multiple alert functions, including tamper alerts, system locking, and low battery notifications. In the event of an anomaly, alert information will be instantly pushed to the app, providing comprehensive home security and peace of mind.

* 32mm: data based on actual measurements, with a tolerance of ±2mm.
* 70°C: internal testing confirms that the smart lock operates normally for over 5 hours in temperatures up to 70°C.
* 25-70mm: The included installation kit is suitable for doors with a thickness of 25-70mm. For doors outside this range, please consult an authorized dealer or customer care center for compatible products.
* Access control PIN: A general term for various temporary PIN solutions, including one-time codes, recurring codes, and time-limited codes.
* One-time codes: a maximum of 10 unique time-limited one-time codes can be generated within 1 hour.
* Recurring codes: codes that can be reused at specific times each week.
* Time-limited codes: codes set to be valid within a specific duration.
* 6 months: this is internal test data; actual battery life may vary with usage frequency.
