Highlights

Open-ear true wireless fit

No two ears are alike, so these buds give you four ways to make the fit yours. Soft, flexible hooks loop around your ears and adjust across four positions for secure all-day comfort, even with glasses on.

Full-spectrum audio

Precision air-conduction drivers deliver natural, balanced sound into your ear canal, whichever fit you choose. Voices come through clearly for podcasts, while full-spectrum audio brings bass, mids, and highs together for music that hits just as it should.

36 hours play time (8 + 28)

You get 8 hours play time from a full charge, and an extra 28 hours from the case. If you need a quick boost, pop the earbuds back in the case for 10 minutes to get an extra hour. It takes 2 hours to recharge the earbuds fully, and mono mode lets you use one earbud at a time while the other one charges.

IPX5 water resistant

With an IPX5 rating, these open-ear buds are ready for whatever your day brings. They'll handle sweaty workouts, dusty streets, muddy trails, and light rain without missing a beat.

Bluetooth® 6.0

Compatibility with the latest Bluetooth® 6.0 devices lets you stream without annoying dips in the sound, and you can connect to two devices at once. Microsoft Swift Pair is supported too.

4-mic technology

These headphones boast a four-mic setup, and two of those mics plus an AI noise-reduction algorithm combine to bring you super-clear calls. Even if you're in a busy cafe, your voice will come through clearly and the person you're speaking to won't be distracted by what's going on around you.

Philips Headphones app

Feel like your music's missing something? Our companion app features AI Neural EQ, an intuitive equalizer that lets you tweak the sound and explore different EQ settings using your fingertips. You can also use the app to activate Dynamic Bass, manage connected devices, update firmware, and more.

Recycled materials

We use post-consumer recycled plastics in our products, and our packaging is made from FSC-certified recycled cardboard with inserts printed on recycled paper.
