

The Philips logo is displayed in a white box with a blue border. The background of the entire top section is a close-up, artistic shot of gaming peripherals: a black and red Philips headset, a backlit keyboard with red and blue keys, a white and black game controller, and a red gaming mouse, all set against a dark, moody background with blue and red lighting accents.

PHILIPS

Wired over-ear gaming headphones

Punchy bass with 50 mm drivers
Comfy for long listening
Omnidirectional gaming mic
USB-C + 3.5mm wired connection

TAG3BK

Immerse Yourself in a Better Gaming Experience

Meet Evina, Philips' co-branded gaming headphones featuring 50 mm drivers for immersive game sounds. The flexible omnidirectional gaming mic with comfort design ensures crystal-clear and seamless team communication during marathon sessions.

Rich sound with punchy bass

- Rich sound with 50 mm drivers, closed-back, tuned for gaming
- Omnidirectional mic picks up your voice from all directions

Comfortable fit, rich fun

- Breathable fabric ear pads provide great comfort
- Flexible suspension headband ensures a better fit

Easy to reach, convenient to use

- Intuitive volume roller on ear cup enables quick control
- USB-C and 3.5 mm ensure multi-platform compatibility

UPC: 8 40063 20789 9

Highlights

Rich sound with 50 mm drivers

Dive deep into rich, powerful soundscapes engineered for gaming. Boast 50 mm drivers deliver crisp highs, detailed mids, and punchy bass, while the closed-back design enhances immersion by isolating game audio and focusing the sound directly to your ears.

Omnidirectional microphone

Be heard perfectly, every time. The omnidirectional microphone captures your voice naturally from any angle while minimizing background noise. Whether calling out strategies or chatting with friends, your communication remains clear and distraction-free. A dedicated mute button on the left ear cup allows for instant muting whenever needed.

Breathable fabric ear pads

Experience fatigue-free gaming marathons thanks to ultra-soft, breathable fabric ear pads. They gently conform to your ears even after a long time wearing, preventing heat buildup and pressure points, while the breathable fabric cushion delivers a perfectly balanced, weightless fit that adapts to any head shape.

Flexible suspension headband

Suspension headband dynamically distributes weight across your head, eliminating pressure points. It self-adjusts to any head shape for a personalized, weightless fit that stays secure during intense gameplay – no manual tweaking needed for all-day pressure-free comfort.

Intuitive volume roller

Never fumble for controls mid-game. Our unique roller dial, seamlessly integrated into the ear cup, allows instant, precise volume adjustments with a simple flick of your finger – keeping you focused on the action without breaking immersion.

3.5 mm plug with type-C converter

Effortlessly connect to any device. Both 3.5 mm jack and USB-C converter compatibility means instant setup with PC PlayStation™, Xbox™, mobiles, Mac and VR, Switch, go to check the connectivity guide for compatibility.
