Highlights

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Acoustics closed-back design

The acoustic closed-back architecture specially designed to eliminate any unnecessary sound leakage and preserve sound details.

• Comfortable cushions for long-time wearing

Comfortable cushions for long-time wearing

Hi-Res Audio

Discover new levels of detail and clarity in your music with Hi-Res Audio. Pure, precision sound enhanced for any music format. These headphones meet the stringent standards required for the Hi-Res Audio stamp of quality.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietsens some of the background noise from the world around you.

Clear sound for calls

Clear sound for calls

Convenient multi-function button

A handy multi-function button on the right ear cup lets you manage calls or control playback and volume. If you're watching videos or movies, you can use the power button to activate a low-latency setting.
