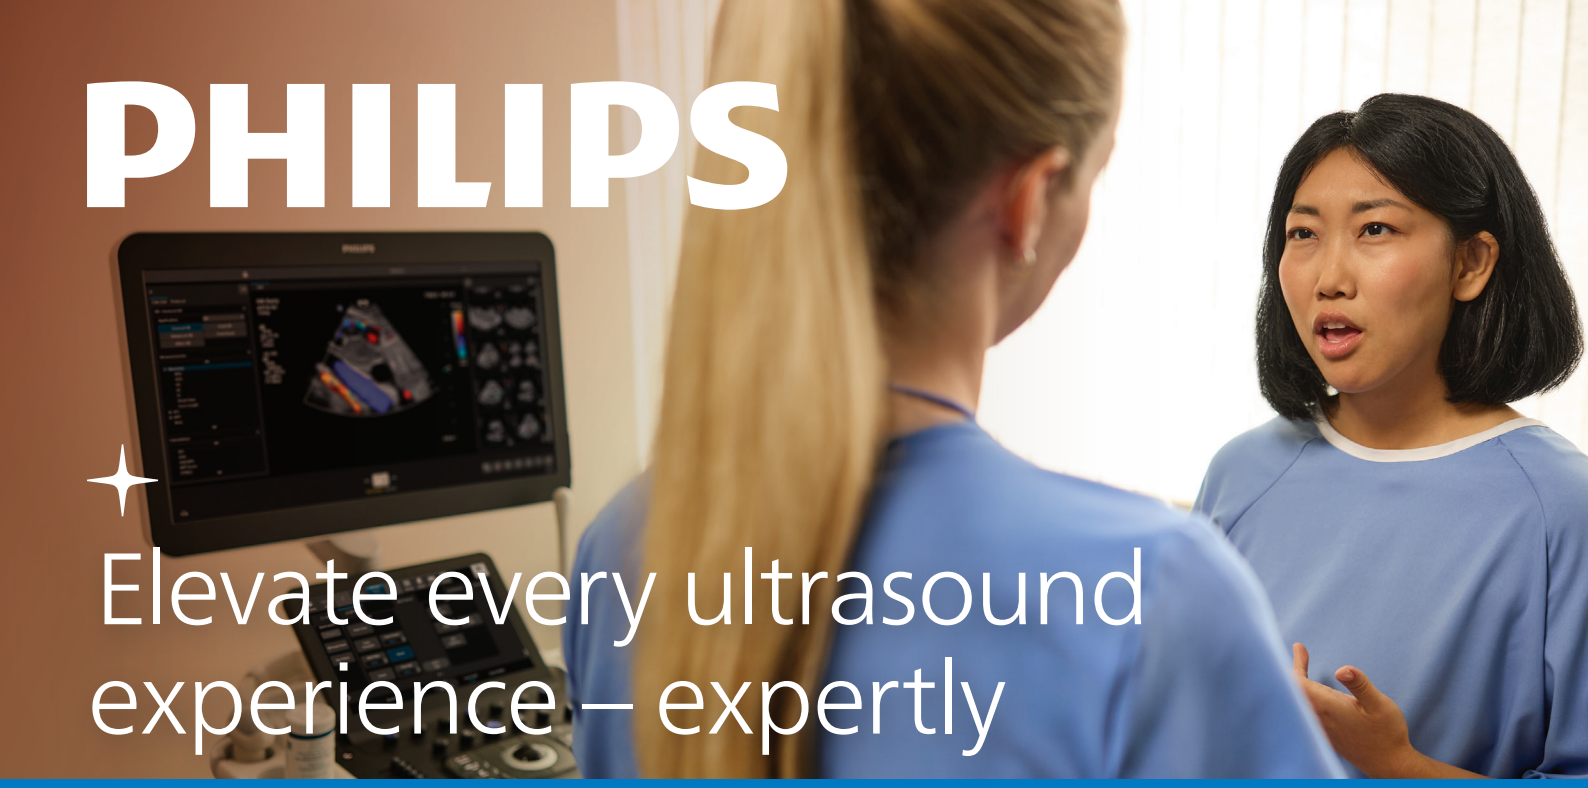
PHILIPS



Elevate every ultrasound experience – expertly

Alturion ultrasound

Meet Philips Alturion — a versatile ultrasound system built for the demands of today's clinical environment. Navigate exams with ease on an intuitive user interface and an expansive 24-inch monitor designed for high visibility. Move confidently across clinical applications with interchangeable transducers shared across compatible Philips systems — helping reduce learning curves and operational costs. And with a portable design, advanced ultrasound performance isn't confined to a single room.

Expertly elevate every ultrasound experience with the shared DNA across the Philips ultrasound portfolio that means it's designed to be easy to learn because of the familiar user interface made for intuitive operation. Share a range of powerful transducers among compatible systems to speed up learning curves and reduce operational costs.

Elevate imaging

through advanced, consistent resolution across a broad range of clinical applications

Elevate workflows

with our latest AI and automation and a modern user interface

Elevate operational value

aided by compatibility, service and support to help your fleet work smarter

Offers high visibility and powerful performance with a larger 24” monitor
See the detail that makes the difference through high-resolution, advanced imaging across the range of applications you count on to keep providing excellent patient care.

Provides the compatibility to share transducers across systems
Save time and cost by sharing a broad range of transducers across compatible Philips systems, enhancing lifetime value for your ultrasound fleet. Service, support and ongoing education help keep you up and running expertly as you do your best for your patients every day.

Facilitates fast, efficient scans with AI, automation and a modern user interface
Our latest AI and automation combine with a familiar user interface across Philips systems that is designed to reduce cognitive burden, allowing for fast, high-quality scanning from the start.

Delivers needed clinical versatility for your diverse patient population
With our broad range of clinical capabilities, including our leading cardiovascular applications, Alturion helps you meet the imaging demands for the increasingly complex patient types you’re seeing day to day.

Fits into tight spaces with ease, even those already full of other clinical equipment
Alturion goes where you need it to, traveling smoothly from department to bedside and fitting into small spaces everywhere in between.

Smarter imaging...streamlined workflows...connected performance

With Alturion, an intelligent platform brings together high resolution imaging and confidence powered by AI and automation so that staff can quickly handle high patient volumes across a range of clinical applications. Easy collaboration and simplified system management help you work more efficiently today while staying ready for what’s next.
