At home in your home

- Compact all-in-one design
- Philips Entertainment app. Smart control for your system
- AC powered and physical remote control included
- GRS-certified recycled plastic. Responsible packaging
- Dimensions (WxHxD): 420x140x262 mm

Highlights

Powerful sound

You'll enjoy crisp, clear sound with deep bass thanks to 3" full-range drivers and the bass-reflex ports. The powerful 100 W max (50 W RMS) output is perfect for big lounges and open-plan living spaces.

All your music

You can tune in to crystal-clear FM radio, stream your sounds via Bluetooth®, play music via USB, or connect turntables via audio-in. The digital radio tuner with 20 presets delivers crystal-clear reception, and the CD player can read MP3 CDs and recorded CDs.

Bluetooth® 6.0

Bluetooth® 6.0 brings you a faster, steadier connection and the LC3 codec is supported for noticeably better sound. The range is wide enough that you'll be able to control what you're streaming from practically anywhere in the house.

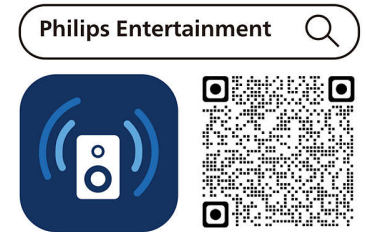

Auracast™

If you want even bigger sound, you can use Auracast™ to broadcast music from this micro system to as many compatible speakers as you like. You can also make the system a receiver and send sound to it from your record player. Setup is simple via the PartyLink mode in our companion app.

Classic design

Stereo speakers are built right into the wooden cabinet of this all-in-one micro system, and a clear color display shows the source or station. Dials control volume, source selection, and tuning. A physical remote control is included in the box, or you can use our companion app.

Philips Entertainment app

Got wide-ranging tastes? Download our companion app and you can use your smart device to select preset sound styles from the Digital Sound Control menu, adjust treble and bass, switch between sources, and more. Plus, the app makes it simple to set up Auracast™ for even bigger sound.

Recycled materials

We use post-consumer recycled plastics in our products, and our packaging is made from FSC-certified recycled cardboard with inserts printed on recycled paper.
