Dual Power Instant Heating System, Delivers Powerful Sustained Mineral Purification, Safe for Mother &

Dual Power Relay Instant Heating System. All-in-one Purification & Mineralization with Zero Performance Decay. Smart household system delivers whole-house tempered pure water. Internationally certified, safe for mothers & infants.

Cleaner water assured

- Aquaporin reverse osmosis filters water better than before
- Adds minerals back into the water to enhance the taste

Worry-free to use and maintain

- Produces clean water more efficiently and saves water bills
- Optimal filtration performance with auto-flush

Your Drinks, Your way

- Fresh hot water on demand within seconds
- 5 temperature settings for your different needs

Build for your convenience

- Extra fast direct flow filtration of 1000GPD
- Check your filtration system without opening the cabinet

Highlights

High filtration efficiency

With advanced filtration technology, the system produces purified water more efficiently with a pure to drain ratio of 2:1. Save your water bills!

Auto membrane flush

With the intelligent auto-flush function, the filtration performance of the reverse osmosis membrane is maintained effortlessly. You may also activate it manually.

Aquaporin reverse osmosis

Harnessing the power of nature, the biomimetic reverse osmosis membrane incorporates aquaporin proteins to replicate nature's own water filtration process and filters water faster and better than ever before. The filtration system can effectively remove 110 kinds of harmful substances down to 0.0001 micron*, providing you and your family with clean and fresh-tasting water.

Mineralization technology

Mineralization technology enhances purified water with beneficial minerals such as Sr, Ca, and Mg, refining the water taste.

Hot water within seconds

The fresh hot water comes out within seconds, at the exact temperature you like, bringing out the maximum aroma in your drinks.

1000GPD

The system offers a high purified water capacity of 1000 gallons per day (GPD), thereby meeting the demands of a big family for clean drinking water. Furthermore, the water flow is fast - filling up a glass of water in less than 4 seconds!**

5 temperature settings

We provide pure-tasting water from ambient to piping hot. Tea, coffee, baby formula. You can do a million things with it.

Smart faucet

With the smart faucet, you can check the water quality and filter status at a glance. No need to bend your knees and open the cabinet.

Specifications

Filtration performance

Microplastics reduction
Chlorine reduction
Pesticides reduction
Water hardness reduction
Bacteria reduction
VOC reduction
Heavy metals reduction
Total dissolved solids (TDS) reduction
PFOA reduction
PFAS reduction

Purification system

Virus removal (MS2): > 99.999%

Filter specifications

Filtration capacity: 6000L

General specifications

Drain water ratio: 2:1
