PHILIPS

Smart lever door lock

6000 Series

IP65-certified

Heat-resistant up to 85°C

Dual-lock linkage

Remote unlock

DDL610LCGBW

Tough against water, dust, and heat

Reliable performance that lasts

Stable in heat, reliable in humidity, and resistant to dust. Philips DDL610-5HWS-HK delivers dependable performance in diverse conditions, providing lasting security and peace of mind.

Crafted with precision, built with care
- Resistant to outdoor dust and water splashes
- Fearless against extreme heat

Easy life goes beyond this
- Accessible to all family members
- One-grip instant recognition
- Say goodbye to the security concerns

Smart life "locked" with excellence
- Always know what's happening at your door
- One-tap instant door access
- Unlock both in one step
- Smooth entry for your visitors

6000 Series

Smart lever door lock

DDL610LCGBW/30

Highlights

Remote access via the App*

Once connected, DDL610-5HWS-HK lets you instantly monitor lock status, unlocking and doorbell records, and receive push alerts via the app — anytime, anywhere.

Remote unlock

DDL610-5HWS-HK uses an always-on network connection, staying online 24/7. With just a tap on the app, your door opens instantly and remotely — anytime, anywhere, even when you're away.

Dual-lock linkage

DDL610-5HWS-HK supports dual-lock linkage, letting you easily set up a linked lock via the app. Once the linked lock is unlocked, DDL610-5HWS-HK automatically unlocks as well, providing a seamless, worry-free entry experience.

Remote PIN code sharing

Once connected to the network, DDL610-5HWS-HK allows you to remotely generate and share temporary PIN codes* via the app. Choose from one-time codes* valid for 6 hours, recurring codes*, or time-limited codes* — offering flexible options to suit every visitor scenario.

IP65* certified

DDL610-5HWS-HK is IP65-certified, ensuring complete dust protection for outdoor use and effectively preventing water jets in all directions from damaging the internal electronic components. This guarantees stable operation in harsh environments, allowing the smart lock to easily handle challenges from dust and splashes.

Withstands up to 85°C

Tested under alternating temperatures from -25°C to 85°C, DDL610-5HWS-HK runs over 5 hours continuously at both temperature extremes without issue. Built to withstand scorching heat and freezing cold, it effortlessly tackles harsh conditions and wide temperature swings.

6 unlocking methods

Supports six unlocking methods — app, fingerprint, PIN code, key card, remote control* (optional), and mechanical key — offering multiple options to meet the needs of the whole family.

Semiconductor finger sensor

Featuring a semiconductor fingerprint sensor with recognition in ≤0.5 seconds*, DDL610-5HWS-HK lets your finger naturally rest on the sensor as you grip the handle. Once recognized, press down to unlock instantly — fast, effortless, and convenient.

Multiple real-time push alerts

Home security, fully covered. DDL610-5HWS-HK features tamper detection, system lock-out, and armed mode alerts. If the smart lock detects any abnormal activity, alert notifications are sent to your app in real time, keeping your home secure and alleviating security concerns.

Specifications

Design & Appearance

Mortise type: Compatible with mortise 724 and 824
Color: Obsidian black
Handle: Lever handle
Main Material: Aluminium alloy, Zinc alloy
Surface Processing: Baked paint finish

Lock Capacity

Fingerprint: Up to 100
Card/Key Tag: Up to 100
User PIN codes: Up to 20 (One-time codes and master PIN incl.)

Power Specification

Power Supply: 4 AA batteries
Battery Type: Alkaline Batteries
Time of Use: 3 months*
Maximum Batteries Capacity: 8 batteries

Installation

Door Thickness: 38-60 mm, 60-90 mm, 90-120 mm, Other range*
Door Opening Direction: Left inward opening, Left outward opening, Right inward opening, Right outward oepning
Door Type: Security door, Wooden door, Copper door
Mortise backset: 70mm

* App: the DDL610-5HWS-HK works with the "Home Access" app.
* Temporary PIN codes: one-time, recurring, and time-limited codes are collectively referred to as temporary PIN codes.
* One-time codes: a maximum of 10 unique time-limited one-time codes can be generated within 1 hour.
* Recurring codes: codes that can be reused at specific times each week.
* Time-limited codes: codes set to be valid within a specific duration.
* 0.5s: sourced from internal testing report data.
* IP65: an international protection standard that measures an electrical enclosure's resistance to ingress of foreign objects such as dust and water. In the IP65 rating, "6" indicates the highest level of dust protection, meaning the product is completely dust-tight, while "5" represents water resistance, meaning the product can withstand water jets from any direction. Actual performance may vary depending on environmental and usage conditions.
* Remote control: Optional accessory, sold separately.
* 3 months: this is internal test data; actual battery life may vary with usage frequency.
* Other range: the included installation kit is suitable for doors with the mentioned thickness. For doors outside this range, please contact authorized consumer care centers or designated offline dealers.
