Highlights

3 ways to unlock

This lock provides convenient living and multiple options to suit your lifestyle. It can be unlocked with 50 fingerprints, 100 PIN codes, mechanical keys for family members or friends. You can choose any method to unlock your door. The multi-functional lock makes your life more convenient.

Biometric identification

When you come home, you no longer need to look for the key on the door, just a gentle touch of your fingerprint is enough to unlock the door. Biometric fingerprint identification technology improves the accuracy of fingerprint recognition. Counterfeit fingerprints are rejected, which enhances security.
