Highlights

Micro-X clean Anti-BPA filter
Enjoy cleaner, healthier water with up to 99% microplastic and Bisphenol-A reduction*

Compressor cools water efficiently
Compressor cooling produces chilled water faster and more efficiently compared to conventional thermoelectric cooling.

Dual heating power as required
Dual power as needed - 350W high power for quick boiling, and 170W low power for energy saving.

Easy-to-replace QuickTwist filter
Easy-to-replace QuickTwist filters, without having to call in a professional

ClearSmart indicator
The ClearSmart indicator reminds you to replace the filter in time to maintain water quality. When the filter is nearing the end of its life, the indicator will start flashing, and will turn red once the filter reaches the end of its life.

Durable filter with 4000L capacity**
The Micro-X Clean Anti-BPA filter has a filtration capacity of 4000L, which can last for 1 year**.

BPA-free
All parts that come into direct contact with water are made of BPA-free materials.

Safety lock to avoid scalding
Child lock for hot water keeps young children safe from accidental hot water burns

Food grade stainless steel Z-pipe
Food grade stainless steel Z-pipe which reaches the bottom of the bottle so that there's no remaining water

Food grade stainless steel water tanks
Food grade stainless steel water tanks
