Highlights

Micro-X clean Anti-BPA filter
Enjoy cleaner, healthier water with up to 99% microplastic and Bisphenol-A reduction*

High Performance
Compression refrigeration system cools water down to 5℃ 1.1L large hot tank & only takes 7.5s to fill a cup of water (150ml)

Dual heating power as required
Dual power as needed - 350W high power for quick boiling, and 170W low power for energy saving.

Two ECO Modes for Energy-Saving
The Eco mode light sensing system can detect light and automatically turns off heating and cooling systems to reduce energy consumption at night . The Eco mode can save up to 40%***** of energy for you

Easy-to-replace QuickTwist filter
Easy-to-replace QuickTwist filters, without having to call in a professional

True Ambient
Hot, cold and ambient water do not mix temperatures

ClearSmart indicator
The ClearSmart indicator reminds you to replace the filter in time to maintain water quality. When the filter is nearing the end of its life, the indicator will start flashing, and will turn red once the filter reaches the end of its life.

The Ultra-wide Touch Glass Panel & Ultra-high Spou
It features an ultra-wide touch glass panel with responsive and smooth touch controls. The ultra-high spout, paired with a capacity-enhancing drip tray, is designed to accommodate cups of various sizes, ensuring a stable and secure placement to minimize the risk of tipping or spills. Furthermore, the integrated night light provides added convenience, enabling safe and effortless water dispensing in low-light conditions.

Worry-free to Maintain
The system is equipped with a single filter with a capacity of 4000 liters, equivalent to 8,000 bottles of 500ml water, ensuring long-lasting and cost-effective filtration. Its innovative easy-to-replace QuickTwist filter, without having to call in a professional.

BPA-free
All parts that come into direct contact with water are made of BPA-free materials.

Safety lock to avoid scalding
Child lock for hot water keeps young children safe from accidental hot water burns

Specifications

Heating performance
Hot water tank: 1.1L

Cooling Performance
Cold water tank: 2.8L

Filter specifications
Filter precision: 1 micro
Filtration capacity: 4000L
Main filter media: Carbon block
Replacement filter cartridge: ADD511

General specifications
Product Dimension (LxWxH): 326x330x1030 mm
Cold water temperature: ≤5 °C
Voltage and frequency: 220V~ / 50Hz
Hot water temperature: 90 °C

Power
Cooling: 80W
Rated power: 440W
Heating: 170W/350W

Country of origin
Water dispenser: China
