Highlights

Remote control through app

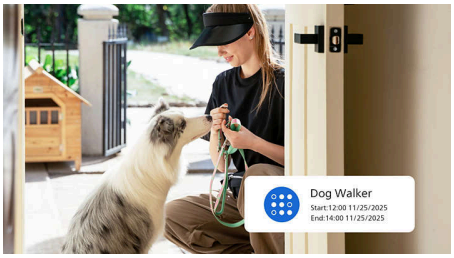

With the Philips Home Access app, you can lock and unlock your door remotely, share PIN codes, monitor real-time notifications, and check your lock's activity history—all from your smartphone, ensuring complete control over your home's security no matter where you are.

Anti-peep PIN code

The Anti-Peep PIN Code feature lets you enter your real PIN code along with random digits before and after, creating a total of up to 20 characters. This ensures that even if someone is nearby, they cannot observe your real PIN, keeping your entry private and secure.

Multi-mode PIN codes management

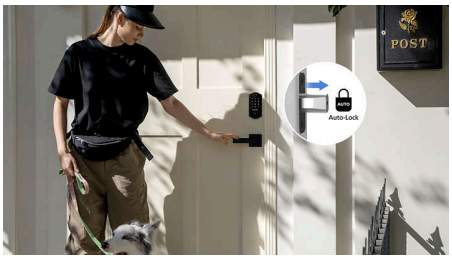

The lock supports Recurring PIN codes for frequent users, One-Time PIN codes for single-use access, and Temporary PIN codes for scheduled time slots. Whether for guests, service personnel, or family members, you can easily manage secure access with flexible PIN code options on Philips Home Access app.

4 ways to unlock

Choose the unlock method that fits your lifestyle the moment you arrive home. You can choose from unlocking with your fingerprint, PIN codes, keys, or just unlock the door with a gentle touch of the Philips Home Access app on your smartphone.

Auto-lock

The Auto-lock feature automatically locks your door after a set time (between 10-180 seconds). Whether you're in a rush or simply forget, this feature ensures your door is securely locked, offering convenience and enhancing your home's security.

Real-time notifications

Stay always in the know with real-time notifications whenever the lock is used. Instantly receive alerts for each unlocking event and check the history of your lock activities anytime via the app. Whether it's family members, guests, or service personnel, you'll always have visibility into who accessed your home and when.
