- 2.8-Inch Slim Backrest

PPM4503DB/27

## Wide-Coverage Back Relief for Long Sitting

Unwind with wide-coverage rolling massage, one-touch spot massage and 113°F soothing heat. A slim backrest, breathable Lycra fabric and soft upholstery provide comfortable support.

### Wide-Coverage Rolling Massage

- Rolling massage covers the lower and upper back.
- One touch focuses kneading on a selected area.
- 113°F warmth complements your massage.
- Slim design for comfortable support and easy storage.
- Breathable fabric with soft, easy-care upholstery.

# Highlights

### Wide-Coverage Rolling Massage
The massage heads travel across a wide area of the back and waist, targeting fatigue-prone muscles along both sides of the spine. The rolling motion mimics hands-on pressing and kneading to help ease stiffness and soreness caused by prolonged sitting.

### One-Touch Spot Massage
Lock onto a sore spot with one touch. The massage heads use rotating pressure and kneading motions inspired by acupressure techniques, concentrating massage on targeted areas to help loosen tight soft tissue and quickly ease localized fatigue.

### 113°F Soothing Heat
Built-in 113°F steady heat provides deep, comforting warmth to help promote circulation, relax tight muscles, and ease discomfort caused by cold. Combined with massage, it delivers deeper, longer-lasting soothing comfort.

### Slim Backrest
The slim, lightweight design naturally conforms to your back for comfortable support during extended sitting. Easy to store and ideal for use at home, in the office, or in the car.

### Breathable Lycra Fabric & Soft Upholstery
Made with high-stretch, breathable Lycra fabric and soft upholstery. The Lycra offers flexibility and airflow for a cooler feel, while the smooth outer material is comfortable against the skin, easy to clean, and designed for lasting durability.
