

Flexibility for multiple applications

Philips dStream Flex L coil solution for Ingenia 1.5T / 3.0T

An integrated coil solution for general-purpose imaging. It includes two large flexible general-purpose coils. Combined with the FlexCoverage Posterior coil they enable 20 cm coverage with a maximum of 8 channels.

The shape and size of the flexible coil elements enable a wide variety of applications, including imaging of large anatomies. The coil can be used to locally enhance resolution of images acquired over a larger FOV, for example in pediatric applications.

- Allows positioning close to the anatomy to increase SNR
- Open, non-rigid design offers imaging solutions for challenging cases
- Delivers high resolution and extended coverage in combination with posterior coil

PHILIPS
sense and simplicity

dS Flex L coil solution

Coverage	20 cm
Max. number of channels	8
Main applications	Shoulder Head Brachial plexus Cardiac Pediatrics
Coil solution type	Integrated
Coil connection	dStream Interface
SENSE parallel imaging	dS-SENSE enhanced parallel imaging performance
