

Flexibility for multiple applications

Philips dStream Flex S coil solution for Ingenuia 1.5T / 3.0T

An integrated coil solution for general-purpose imaging. It includes two small flexible general-purpose coils. Combined with the FlexCoverage Posterior coil they allow 10 cm coverage with up to 4 channels.

The shape and size of the flexible coil elements allow a wide variety of applications, including imaging of small anatomies. The coil can be used to locally enhance resolution of images acquired over a larger FOV, for example in pediatric applications.

- Allows positioning close to the anatomy to increase SNR
- Open, non-rigid design offers imaging solutions for challenging cases
- Delivers high resolution and extended coverage in combination with posterior coil

PHILIPS
sense and simplicity

dS Flex S coil solution

Coverage	10 cm
Max. number of channels	4
Main applications	Elbows Wrist Ankle Inner ear Pediatrics
Coil solution type	Integrated
Coil connection	dStream Interface
SENSE parallel imaging	dS-SENSE enhanced parallel imaging performance
